SFB OPPORTUNITY – BANKING FOR THE UN(DER)BANKED

Opportunity at the bottom of the pyramid

- While the RBI granted only 12 bank licenses in the last two decades, it granted 10 in-principle approvals for SFBs. This indicates RBI's focus on financial inclusion and providing banking services to the un-banked and under-banked. Also indicates market-size and opportunity.
- India is home to 21% of the world's unbanked adults and about two-thirds of South Asia's.
- Branch per 100,000 adults in India stands at 747 compared to 1,065 for Brazil and 2,063 for Malaysia.
- Loans-to-GDP ratio is low (62%) relative to many of our emerging markets peers as well as the US and UK.
- The real annual disposable household income in rural India forecasted to grow at CAGR of 3.6% over the next 15 years - rising incomes expected to enhance need for banking services in rural areas.
- India's total banking sector credit expected to increase at a CAGR of 18.1% to USD 2.4 trillion by 2017.
- Population in 15-64 age group is expected to grow strongly going ahead, giving further push to the number of customers in banking sector.

MFIS – SIGNIFICANT FOR THE INDIAN BANKING LANDSCAPE

- The fact that 80% of the institutions receiving green signal for SFBs are MFIs outlines the significance of microfinance for the Indian banking landscape.
- Of the 600,000 villages in India only 5% have a commercial bank branch and only 40% of the adult population has bank accounts.
- Around 20–25% of the loans as well as deposits of banks are generated from semi-urban and rural areas and have been growing at a faster pace over the past 5 years compared to the overall growth.

ROBUST RISK MANAGEMENT FRAMEWORK

POLICY FRAMEWORKS

- Strong credit function independent of our business.
- Risk management and audit framework to identify, assess, monitor & manage credit, market, liquidity & operational risks.
- Key controller of the overall portfolio quality.

OPERATING PROCEDURES

- Decentralized loan sanctioning and stringent credit history checks.
- Ensure that no single state contributes > 20% of Gross AUM.
- Mitigate industry-specific risks like high staff turnover & cash handling:
Staff Retention Ratio: 81.6%¹
Cashless disbursement: >50%¹

CONTINUOUS MONITORING

- Strong and independent internal audit and internal control function.
- Implementing best practices such as the Risk & Control Self-Assessment (RCSA) program.
- Effectively monitor liquidity risk and interest rate risk, and ensure diversified funding.

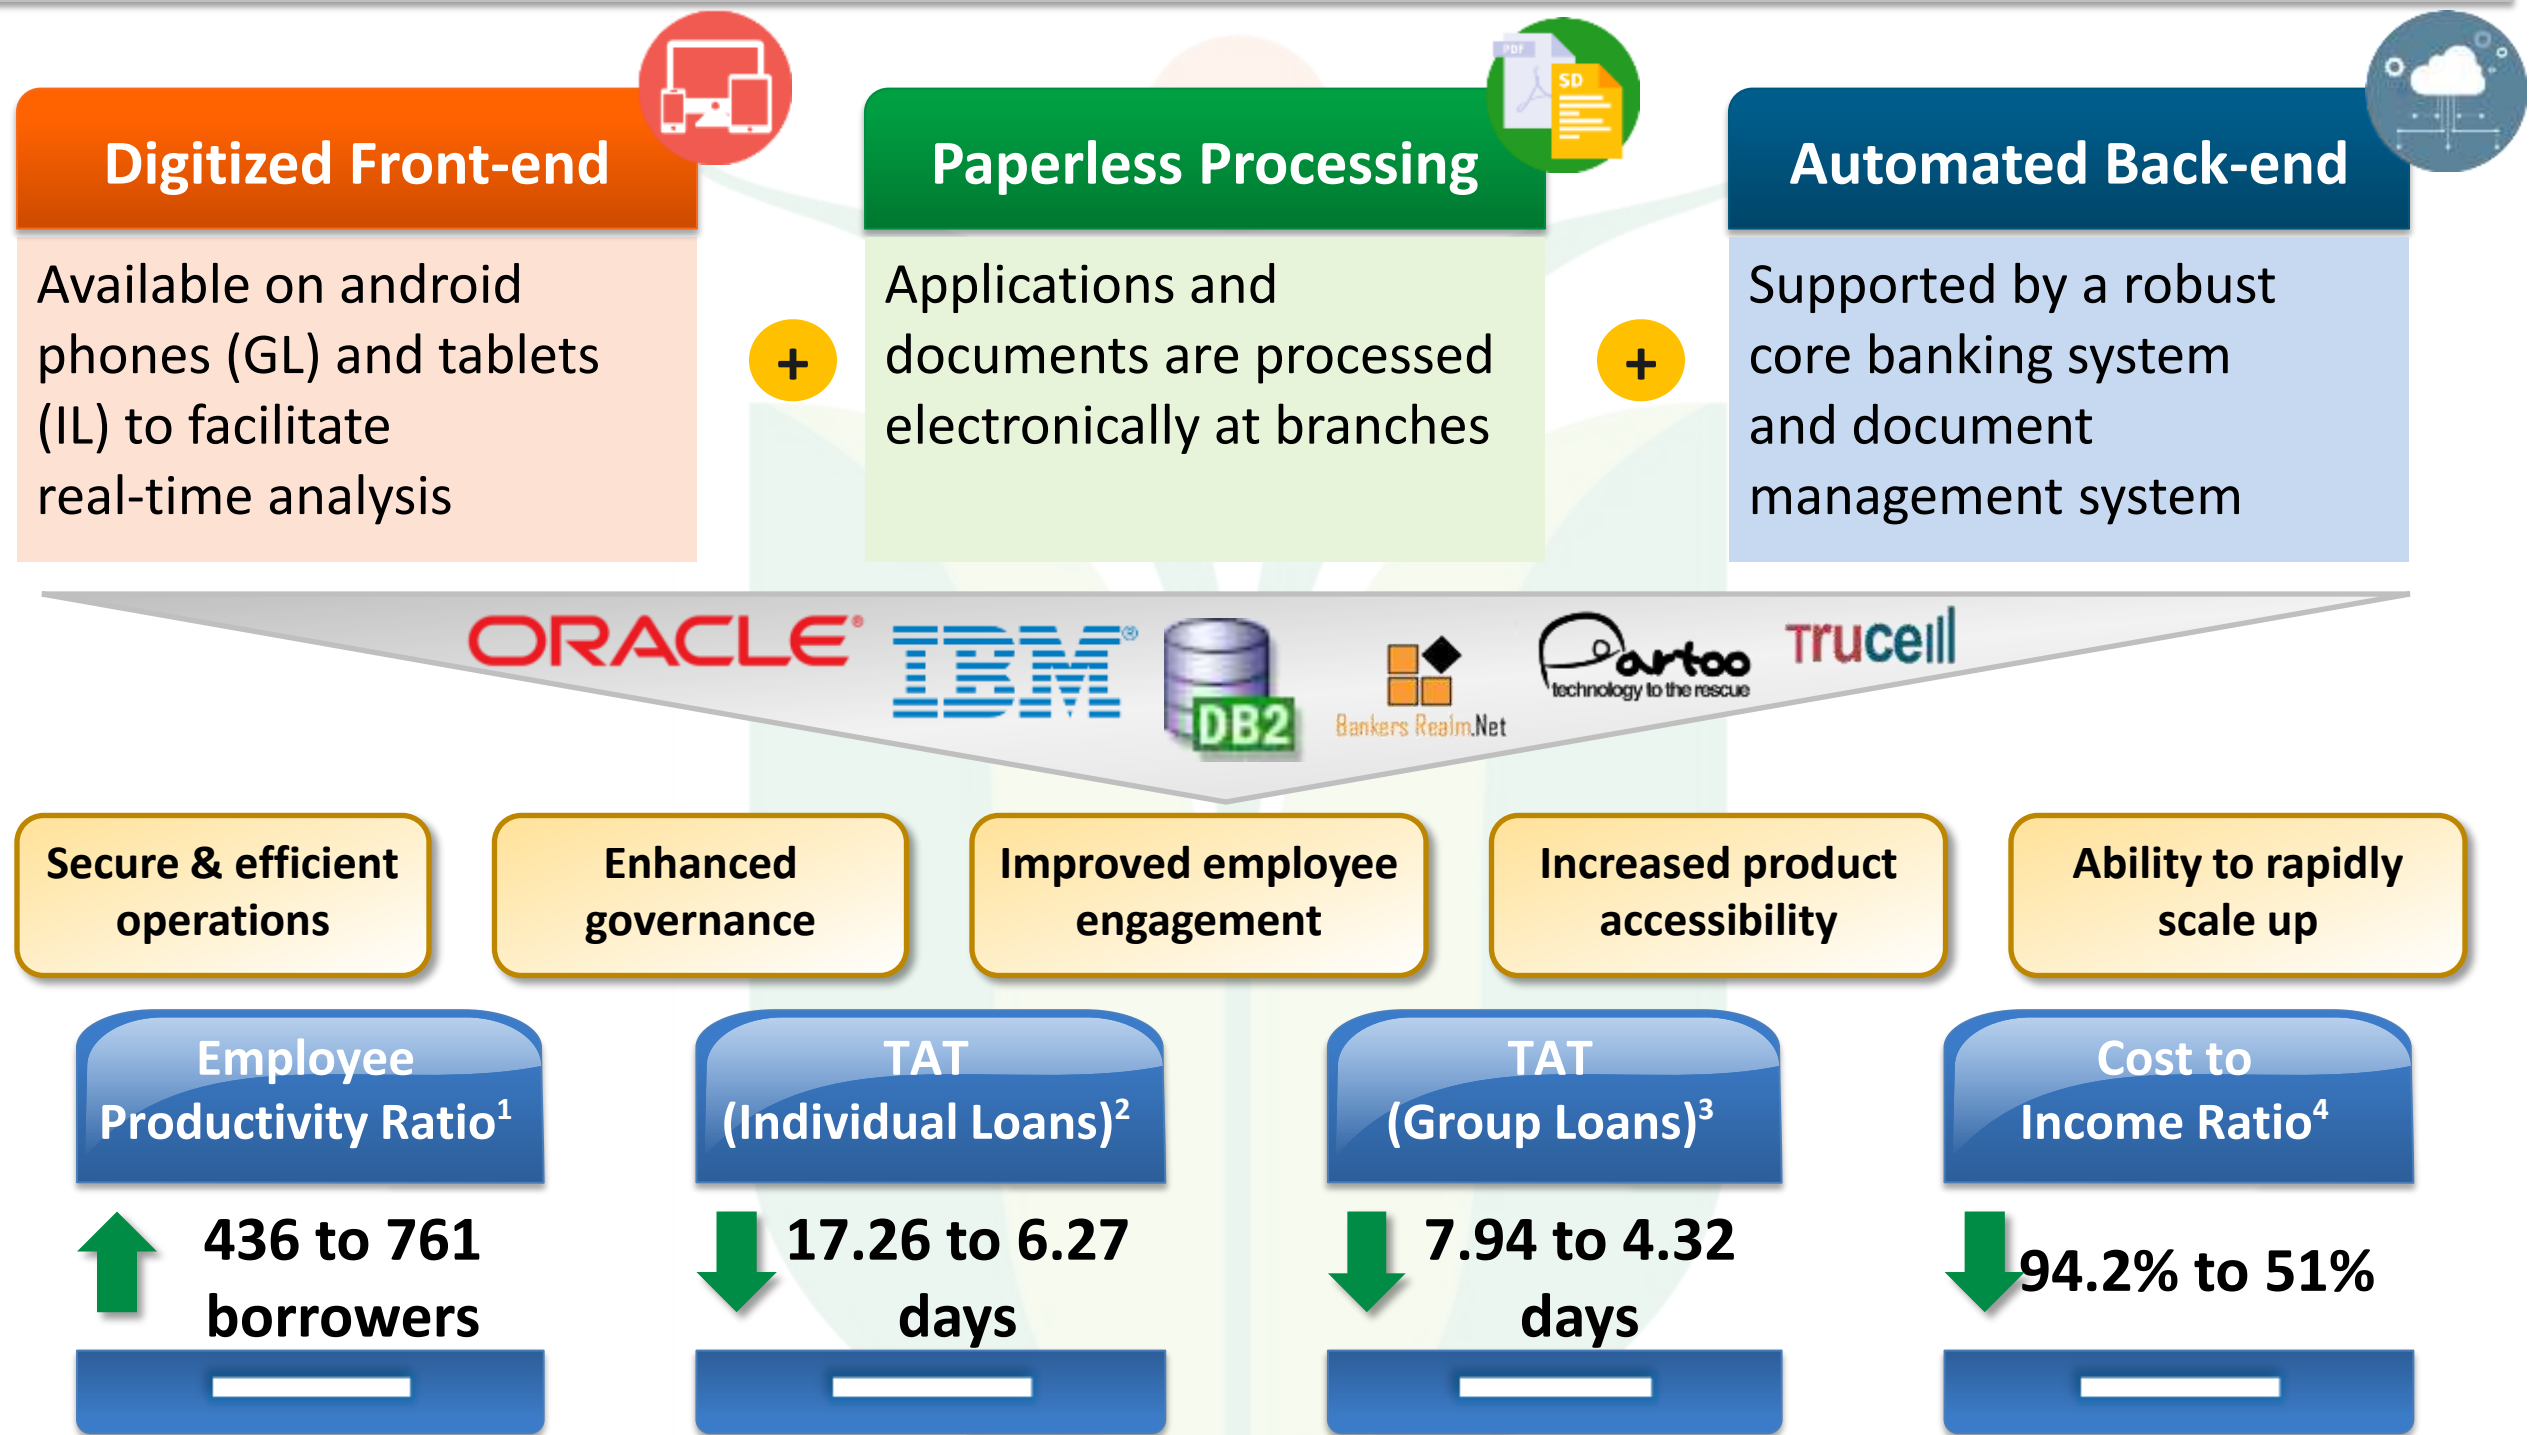

Consistent portfolio quality in spite of increase in the size of operations and venturing into new products and customer segments.

PROPOSED SMALL FINANCE BANK – TRANSITION STRATEGY

Building blocks for smooth transition are already in place:

Three phase strategy for transition to SFB:

Prepare

- 🌱 Roll out readiness initiatives
- 🌱 Redesign products and implement advanced technology
- 🌱 Transition and train human resources
- 🌱 Continue to expand concurrently existing MFI business

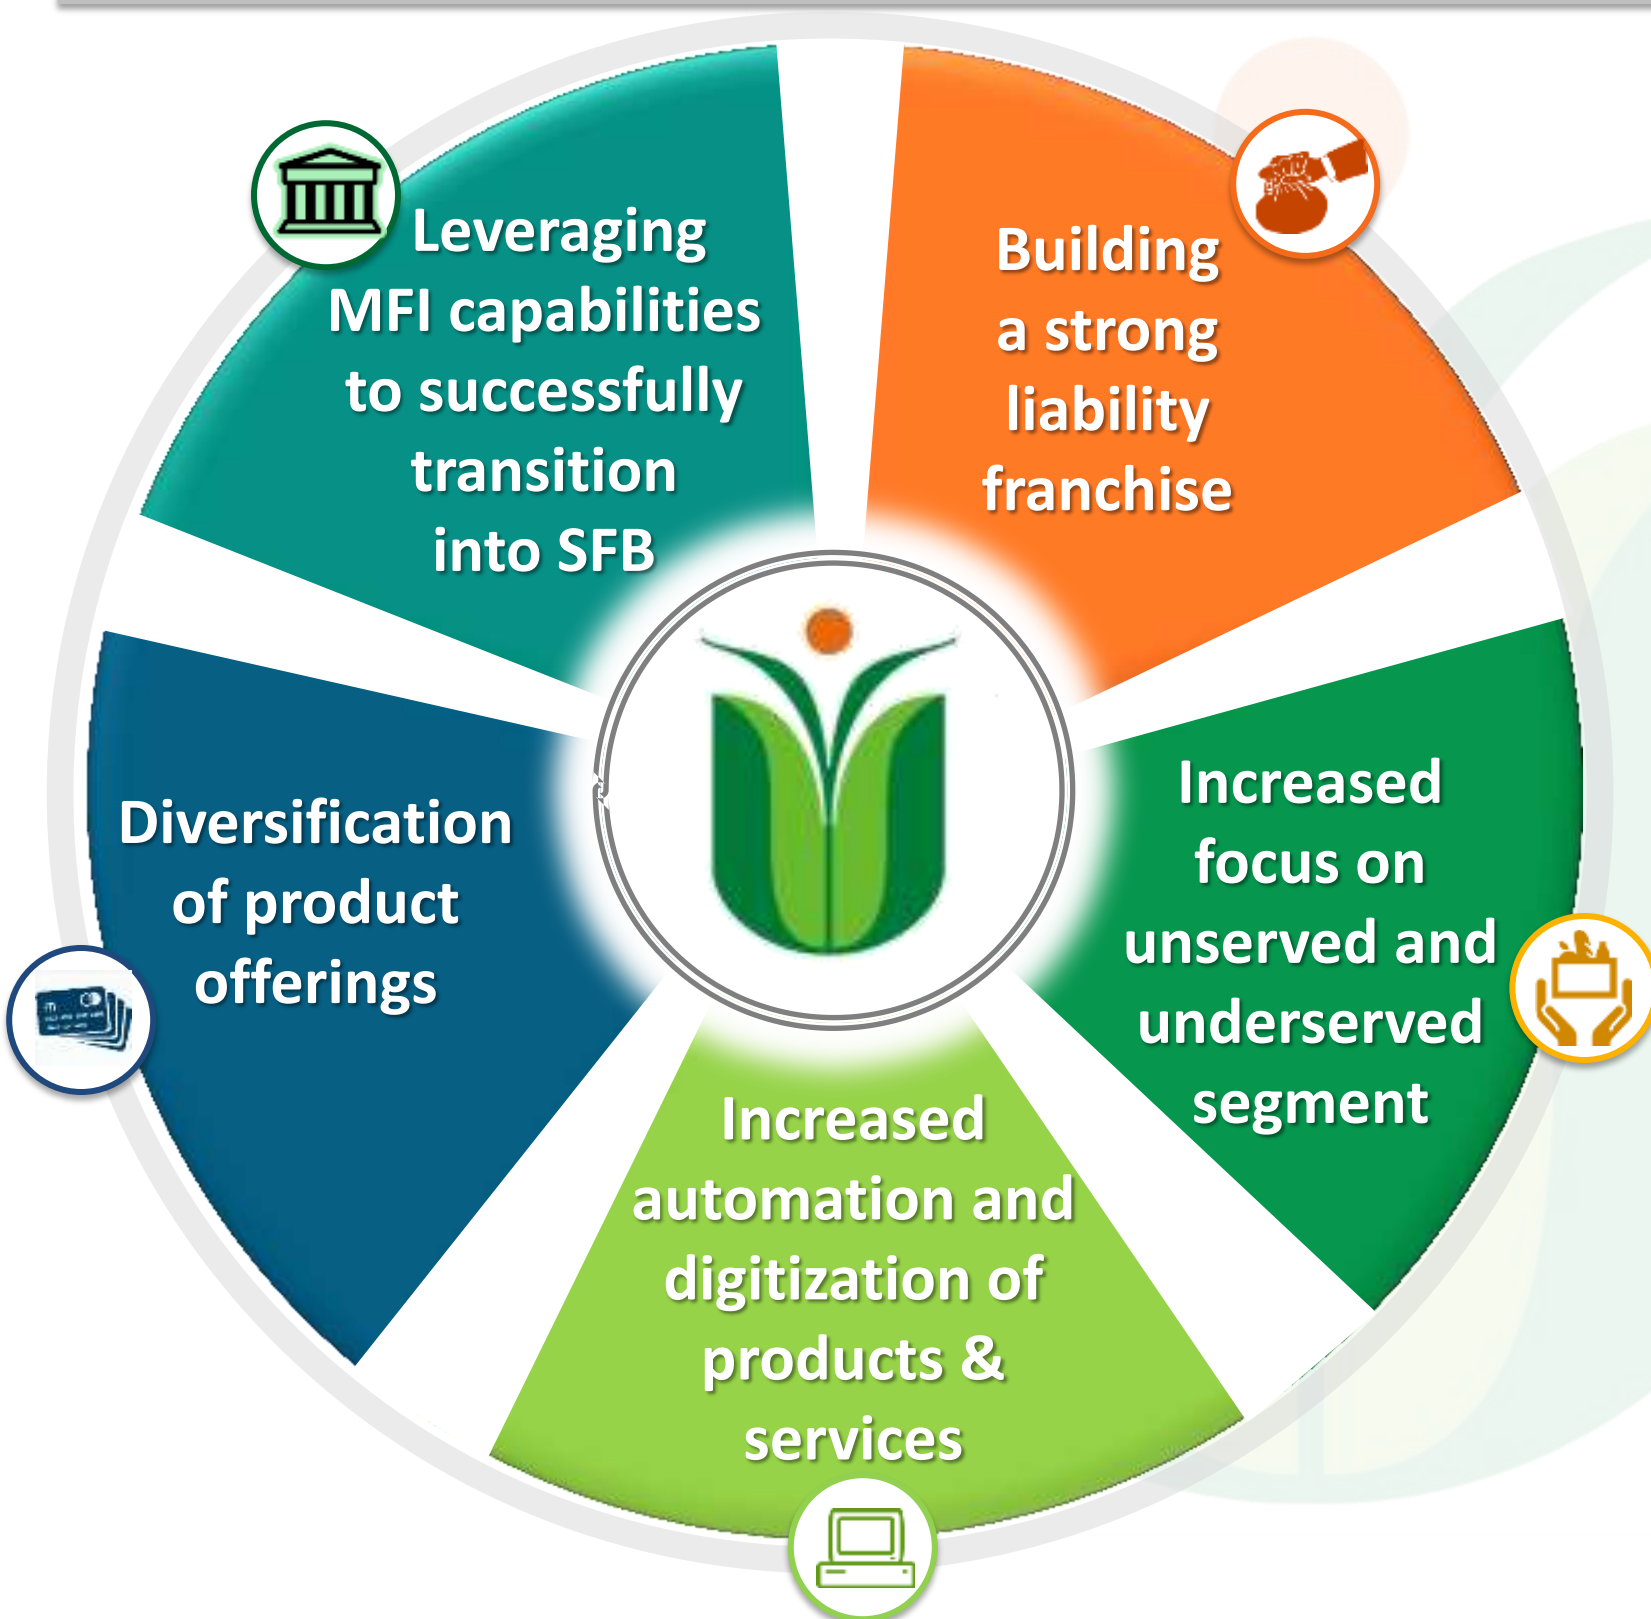

Transform

- 🌱 Consolidate current operations
- 🌱 Add on to existing product delivery channels
- 🌱 Introduce additional product lines including savings, deposits and fee-based services

Grow

- 🌱 Expected to start 3 years from proposed SFB operations
- 🌱 Ramp up geographic expansion through addition of new branches
- 🌱 Pursue new customer segments and products
- 🌱 Focus on growth in open market customers
